

Nápověda: Look at the kids' names and then count .

Tato hra opravdu existuje a v Británii se hraje. Dají se o ní najít i informace na internetu. Skoro všechny použité názvy hospod existují, což jste jistě zjistili, když jste je googlovali. Podstatou hry je počítat nohy v názvů hospod. Co noha, to bod. Např. kuň 4 body, princ 2 body. Milking stool má 3 nohy, takže 3 body.

Hello

My name is Steve. When I was little we used to go to see my aunt and her family at least once a year. They lived more than two hundred miles away from our town. We had a seven-seat family car at that time, which was able to safely transport my parents, my grandpa, my three brothers Luis, Eddie, Gregg and me, Steve, wherever we needed.

The journey was long and my parents tried very hard to keep us kids busy. During one of these family road trips my dad introduced us to a game involving the names of pubs. Whenever we passed a pub, whoever said the name of the pub first might or might not get some points.

My main memory of playing this game was a journey where I scored no points at all.

Here is a list of pubs we spotted. Some of the names are really weird:
